

API Contract

API Endpoint - POST /auth/token

Purpose: Authenticate user and return a JWT token with user identity and role information.

Request

POST /auth/token

Content-Type: application/json

Request Body

```
{  
  "username": "creator@example.com",  
  "password": "secret"  
}
```

Response --- 201 Created

```
{  
  "access_token": "eyJ0eXAiOiJKV1QiLCJhbGciOiJIUzI1NiJ9...",  
  "token_type": "bearer",  
  "user": {  
    "id": "user-123",  
    "client_id": "LearningWeaver123",  
    "name": "Alex Johnson",  
    "role": "creator"  
  }  
}
```

Response --- 401 Unauthorized

```
{  
  "message": "Incorrect username or password"  
}
```

Response --- 403 Forbidden

```
{  
  "message": "Account is deactivated"  
}
```

Activity Data For Launch Screen

API Endpoint - GET /activity-data/{activity_id}

Purpose: Retrieve scenario and role information for a specific activity to display on the Welcome / Landing screen.

Request

GET /activity-data/{activity_id}
Authorization: Bearer <access_token>

Response --- 200 OK

```
{  
  "scenario": {  
    "description": "This scenario will test your negotiation skills..."  
  },  
  "userRole": {  
    "name": "Alex, the Project Manager",  
    "description": "You are the project manager..."  
  },  
  "aiRole": {  
    "name": "Sarah, the Client",  
    "imageUrl": "/assets/ai-role-image.png",  
    "description": "Sarah is the Director of Product..."  
  }  
}
```

Response --- 404 Not Found

```
{  
  "message": "Activity not found"  
}
```

Response --- 403 Forbidden

```
{
  "message": "You do not have access to this activity"
}
```

Activity (Creator) - CRUD

API Endpoint - GET /activities/{client_id}

Purpose: Retrieve a list of all activities created by the authenticated client. Returns basic info only for dashboard/list view.

Request

GET /activities/{client_id}

Authorization: Bearer <access_token>

Response --- 200 OK

```
{
  "activities": [
    {
      "activity_id": "activity-101",
      "name": "Negotiate a New Contract",
      "link": "http://localhost:3000/welcome/activity-101",
      "created_date_time": "2025-10-25T09:00:00Z",
      "status": "active"
    }
  ]
}
```

Response --- 403 Forbidden

```
{
  "message": "You do not have permission to view these activities."
}
```

Activity Creation

API Endpoint - POST /activities

Purpose: Create a new activity with complete configuration (Basic Info, Criteria, Competencies, Demographics, etc.)

Request

Authorization: Bearer <access_token>

Content-Type: application/json

Request Body

```
